Exhito

Style in technology

Here is Exhito, the new line from Farfisa. Exhito has everything that can be desired from a video intercom: flexible state-of-the-art technology designed in a pleasing and innovative shape. A design of character, with a thin discreet profile yet a strong durable construction. Exhito allows many possibilities, thanks to the 7 buttons, 2 for auto switch-on and door opening and a further 5 for intercommunicating calls and additional services, such as bell exclusion. The video intercom is white with a 4" LCD or b/w screen with a grey surround that can easily be replaced by the optional green, blue or silver frames that have been created to enhance the décor of any home.

Today Exhito is able to satisfy with only one monitor the requirements of all technologies, from conventional or reduced wiring analogue systems to FN4000 and DF6000 digital installations. Just select the dedicated wall bracket for the chosen technology. Exhito is now also available for Duo System, the Farfisa digital system with only 2 non-polarized wires. A variety of video kits are also available that include all the products needed for the installation.

Exhito is the line conceived for those who require the best from an electronic product, without compromising a stylish appearance and practicality of use.

Exhito, style in technology.

MONITORS

EX3160C
Dim: mm 211x218x62
Colour: white

LCD 4" monitor for reduced and conventional wiring, digital FN4000 or DF6000 systems, depending to the wall bracket joint. Provided with 7 function buttons (2 for auto switch-on and door opening and further 5 for additional functions depending to the used technology).

Interchangeable frame green "spring" colour that replaces the one provided for the screen of Exhito monitor.

MC3000T
Interchangeable frame silver "champagne" colour that replaces the one provided for the screen of Exhito monitor.

FIXING ELEMENTS

WB3161
Wall bracket to mount on the wall EX3160C or EX3160 monitors in reduced wiring.

WB3160
Wall bracket to mount on the wall EX3160C or EX3160 monitors in conventional wiring.

WB3262
Wall bracket to mount on the wall EX3262C or EX3262 monitors.

WB3160DG
Wall bracket to mount on the wall EX3160C or EX3160 monitors in FN4000 digital systems.

WB3162
Wall bracket to mount on the wall EX3160 monitors in DF6000 digital systems.

VIDEO KITS

EX3161AGC
One-way colour video kit composed by Exhito monitor and surface mounting Agorà door station for reduced wiring technology.

EX3161AG
One-way b/w video kit composed by Exhito monitor and surface mounting Agorà door station for reduced wiring technology.

EX3161PLC
One-way colour video kit composed by Exhito monitor and Profilo external door station with reduced wiring technology.

EX3161PL
One-way b/w video kit composed by Exhito monitor and Profilo external door station with reduced wiring technology.

EX3160PLC
One-way colour video kit composed by Exhito monitor and Profilo external door station with conventional wiring technology.

EX3160PL
One-way b/w video kit composed by Exhito monitor and Profilo external door station with conventional wiring technology.

EX3262AGC
One-way colour video kit composed by Exhito monitor and surface mounting Agorà door station for digital Duo System technology.

EX3262AG
One-way b/w video kit composed by Exhito monitor and surface mounting Agorà door station for digital Duo System technology.

EX3262PLC
One-way colour video kit composed by Exhito monitor and Profilo external door station with Duo System technology.

EX3262PL
One-way b/w video kit composed by Exhito monitor and Profilo external door station with Duo System technology.

INTERCOMS

EX321
Dim: mm 44x27x47
Colour: white
Intercom for reduced wiring, provided with 8 function buttons of which 1 for door-opening and further 7 for additional functions.

EX320
Dim: mm 44x27x47
Colour: white
Intercom for conventional wiring, provided with 8 function buttons of which 1 for door-opening and further 7 for additional functions.

EX362
Dim: mm 44x27x47
Colour: white
Intercom for Duo System, provided with 7 function buttons of which 1 for door-opening and further 6 for additional functions.

EX320DG
Dim: mm 44x27x47
Colour: white
Intercom for FN4000 digital system with integrated decoding, provided with 7 function buttons of which 1 for door-opening and further 6 for additional functions.

EX322
Dim: mm 44x27x47
Colour: white
Intercom for DF6000 digital systems. Supplied with 1 button for electric door lock and a further one for additional functions.
